

2022-06-21

- 1) draw workflow
- 2) decide how to make things more advanced.

↳ i) does API do more similar

to advance or beyond  
applying code to

- come up w flow chart
- break down & how the parser works
- desktops + expensive level
- what does "poppy" do on the website or the

- To train neural nets
- advanced attribute
- using readability
- based on readability
- scores validation
- cross validation
- supervised ML

\* how well ML can predict beyond or add

scikit

~~Start~~ text - stat

SVM-model

- ① flow chart
- ② have prethitted version of malekness
- ③ tool → MC
- ④ Think about story to pitch idea
