#Total sentence (beginner) vs Total sentence (advance)

#output

#Wilcoxon rank sum test with continuity correction

#data: beginner_ts and advance_ts

#W = 406.5, p-value = 0.7074

#alternative hypothesis: true location shift is not equal to 0

#Total words (beginner) vs Total words (advance)

#output

#Wilcoxon rank sum test with continuity correction

#data: beginner_tw and advance_tw

#W = 424, p-value = 0.8986

#alternative hypothesis: true location shift is not equal to 0

#Gunning Fog Index (beginner) vs Gunning Fog Index (advance)

#output

#Wilcoxon rank sum test with continuity correction

#data: beginner_gfi and advance_gfi

#W = 208, p-value = 0.001437

#alternative hypothesis: true location shift is not equal to 0

#Flesch Reading Ease (beginner) vs Flesch Reading Ease (advance)

#output

#Wilcoxon rank sum test with continuity correction

#data: beginner_fre and advance_fre

#W = 587, p-value = 0.03023

#alternative hypothesis: true location shift is not equal to 0

#Flesch-Kincaid Grade (beginner) vs Flesch-Kincaid Grade (advance)

#output

#Wilcoxon rank sum test with continuity correction

#data: beginner_fkg and advance_fkg

#W = 186, p-value = 0.0004673

#alternative hypothesis: true location shift is not equal to 0
