$k = 2 - 10$

on example by elim

how do i know clustr is good
- entropy

- based on how # of
  k is defined

silhouette analysis

- write paragraph on three
levels
- start presentation
w presenting the problems
in 2022-20
what if we start by enriching
current APL documentation β
hyper linking yatube or useful
resources? → where can i add
links to yatube (tutorial

wherever there is an opportunity
to add to documentation
blemish documentation
report documentation etud.

how do you know where
to link stuff?

- youtube API

- Tensor Flow docstring
  for
  -connecting Tensor Flow w
  elim parser.

- how to retrieve parts from
  doc string to enrich

- how to find right tutorial

- TFIDF
